means comfort & confidence
all day long

Machine washable,
quick dry

Meet Nicole

The Wardrobe Evolution was inspired by my fulfilling yet challenging demands as an entrepreneur and mother, to feel confident from day into night.

The challenge I had was one nearly every woman can relate to: How to get dressed in the morning to look good, feel good and have the versatility to go from mothering duties to business meetings to an evening engagement? Was there a collection of clothes that met my criteria of being stylish and comfortable? Was there a way to simplify without compromising?

I wasn't able to find one.

The solution I created is a zipper system of dressing where Zip-Ons could be added and removed to Base Pieces to change your look anytime, anywhere with grace and ease. This new way of dressing offers women of all shapes and sizes a chic, comfortable and seamless transition throughout their busy day.

Welcome to The Wardrobe Evolution!

Enjoy!
